# Commercial Vehicle Cargo Securement Course Outline

## Introduction

This 1-day course is designed for Fleet and Safety Managers, as well as all commercial vehicle operators. This course will equip managers and operators with the necessary skills to secure loads according to current regulatory requirements and industry "best practices"

Drivers: Know how to properly secure the load.

Managers: Know that your fleet is in compliance and drivers & equipment are legal

Note: New North American Load Securement Standards in effect January 1, 2005.

In-house training available

## Course Content

This course will cover the following content:

- Introduction to the new standards
- Necessary skills to secure loads
- Standards & basic physics behind the new rules
- Definitions & basic load securement requirements
- Practical & cost-effective ways to load all general freight
- New methods of load securement including the use of friction devices
- How tie downs work (direct vs. indirect)
- New legislation regarding the transportation of cargo in dry box trailers
- Proper blocking, bracing & dunnage techniques
- Compliance tips
