## May General Meeting Speakers

### Dates:

Coquitlam, Wed. May 7th, 2025

Abbotsford, Tues. May 20th, 2025

### Guest Speaker (s):

Willie Stephen, Maxquip & Rene Vandriel, Superior Propane

### Topic:

#### Auto Propane: A Better Way Forward, Efficient and Affordable

- 27% Reduction of GHG from Gasoline.
- Over 50% Fuel Cost Savings.
- Renewable Propane will reduce GHG by 80% and it is here now.
- Can be upfitted on most North American Gasoline platforms
- Can be upfitted to existing vehicles, no need to switch out vehicles that still have life.
- Easy and Inexpensive infrastructure for back to base fleets
- National Cardlock Network

# GUEST SPEAKER FOLLOW-UP

## Auto Propane: A Better Way Forward, Efficient and Affordable

*Presented by Willie Stephen, Maxquip & Rene Vandriel, Superior Propane*

### What is Auto Gas?

Courtesy of [www.wlpga.org](http://www.wlpga.org) - World LPG Association Autogas Vehicles Catalogue 2018

### Environmental Benefits in Vehicles

- **26% Reduction in GHGs** (Referenced by GH Genius) as compared to gasoline powered vehicles
- **0% Black Carbon**
- **Improved Air Quality** emitting virtually no soot, and low carbon monoxide, hydrocarbons, and oxides of nitrogen

Fuel Type	Gasoline	Gas Hybrid	Natural Gas	Hythane	Propane	Diesel
GHG % Reduction by Fuel Type	0%	-34.1%	25.5%	-21.3%	25.8%	-16.7%

## Components of Conversion

### Highlights:

#### AFC-3.0 DI computer

The heart of the VSI-3 DI LPG system with integrated DI injector emulation and full limp-home functionality; ensuring overall system control, safety and efficiency. This AFC is compatible with DI and DI+MPI engines.

#### eVP-500 LPG reducer

The fuel pressure is controlled by the patented Prins eVP-500, the world's first fully electronic LPG reducer for engines up to 500 Hp; ensuring correct LPG supply flow in all operating conditions, for smooth and optimal driveability performance.

#### LPG injectors

Fuel is delivered to the engine by high quality LPG injectors, such as Keihin injectors, known for their accuracy, endurance and speed.

# CAFS TRAINING

*Stu Imre, CAFS Instructor*

**Put CAFS's wealth of knowledge and industry trainers to work for you!**

**Our instructors are top-quality and have many years experience in their related fields of training.**

## Air Brake Instructor Certification

*A Provincial Government Approved Course*

This ICBC approved program is designed to give participants the knowledge to effectively prepare and deliver an air brake course.

The course concentrates on instructional methods and technical content for air brake systems.

Course content includes topics of instructional procedures such as lesson plans, coaching, effective teaching techniques, questioning techniques and developing multiple choice questions.

Technical content includes topics on the basic air brake system, dual air brake system, trailer air brake systems, brake adjustment and air brake valves.

Each student is given an opportunity for "hands on" experience in assembling and instruction using a fully operational air brake board. The air brake board has fully interchangeable components and is capable of simulating all types of air brake systems.

Each student is required to develop and present two 45 minute presentations to the class. Topics will be on air brake systems and the instructor will allocate the topics

on the first day of class.

Each student must obtain 80% on each presentation to pass the course. An informational entrance exam is given on the first day and a final theory exam is given at the end of the week. Each participant must obtain 80% on the final theory exam to be successful.

Each student is given a "Driving Commercial Vehicles" handbook, a course manual which includes technical information and Provincial And Federal air brake regulations.

### **IMPORTANT ACTION REQUIRED BY STUDENT:**

To confirm the two years of air brake experience, the applicant will need to obtain a customized Driver's Abstract with a note added to their driving record which displays the date they received their (endorsement 15) air brake endorsement.

**The applicant must phone ICBC to get this customized driving record emailed or mailed to them.**

Regular online driving records or those produced at a Driver Licensing Office will not have this information.

***Once copy is obtained, you may proceed to register.***

### **PORT COQUITLAM**

**September 15th - 19th, 2025**

**Time:** 8:30 am - 4:30 pm daily

**Cost:** Member: \$1150 / Non-Member: \$1300

\* Maximum 8 students per class      \* Course fee includes course material

\* The following manuals are optional, and will be available for purchase at the course;

**\$35 - Air Brake Connection manual & \$35 - Inside Air Brake Valves + Devices**

At Phil's Batteries & More you get more than just a new battery. Since 1996 our family of knowledgeable staff has helped our customers get the right product for their specific needs. We will help you choose the right battery for your automotive, commercial, deep cycle, marine, motorcycle or truck application not just sell you a new battery.

Need to keep your batteries charged?

We can help with intelligent battery chargers and maintainers.

Do you have used batteries you need to recycle?

We can recycle them.

Do you have a fleet or repair facility?

We provide rush delivery service saving you from extended equipment downtime.

**Thank You For Your Support**

## CAFS TRAINING

*Stu Imre, CAFS Instructor*

**Put CAFS's wealth of knowledge and industry trainers to work for you!**

**Our instructors are top-quality and have many years experience in their related fields of training.**

### Authorized Inspector Certificate

*Provincial Government recognized Certification Course upon successful completion*

This course is required for journey person mechanics wanting to become certified as an Authorized Commercial Motor Vehicle Inspector.

This 3-day course will include two days of theory and one day of practical.

Prerequisites include Certificate of Qualification (TQ#) or Red Seal status in Commercial Transport Mechanical Repair, Commercial Transport Trailer Repair, Heavy Duty Mechanical Repair or Automotive Repair Trades.

Participants are eligible to receive Authorized Inspector Program Certification upon successful completion of the course.

This course will cover the following content:

- Classes of motor vehicles,
- Motor Vehicle Act and Regulations,
- Designated Inspection Facility Program,
- Preventative Maintenance Program,
- Inspector Qualifications and Responsibilities,
- Responsibilities of Facility Operators and Inspectors,
- Commercial Vehicle Inspection manual,
- Procedures for forms completion and decal application,
- Vehicle Inspection e-forms general procedures and how to sign up,
- Preparation and administration of Authorized Inspectors examination,

**NOTE student requirements:**

A mobile BC Services Card registered for use to access online government application <https://www2.gov.bc.ca/gov/content/governments/government-id/bc-services-card/log-in-with-card>

Students are required to bring to class a laptop computer, tablet or mobile device to take the examination and apply for their inspector certificate.

CSA approved safety glasses and footwear is required during the practical portion of the course. Footwear must be steel-toed leather, ankle covering boots.

### 2025 DATES TO BE ANNOUNCED

**Theory:** (days 1 & 2) AND **Practical:** (day 3)

**Time:** 8:00 am – 4:30 pm, each day

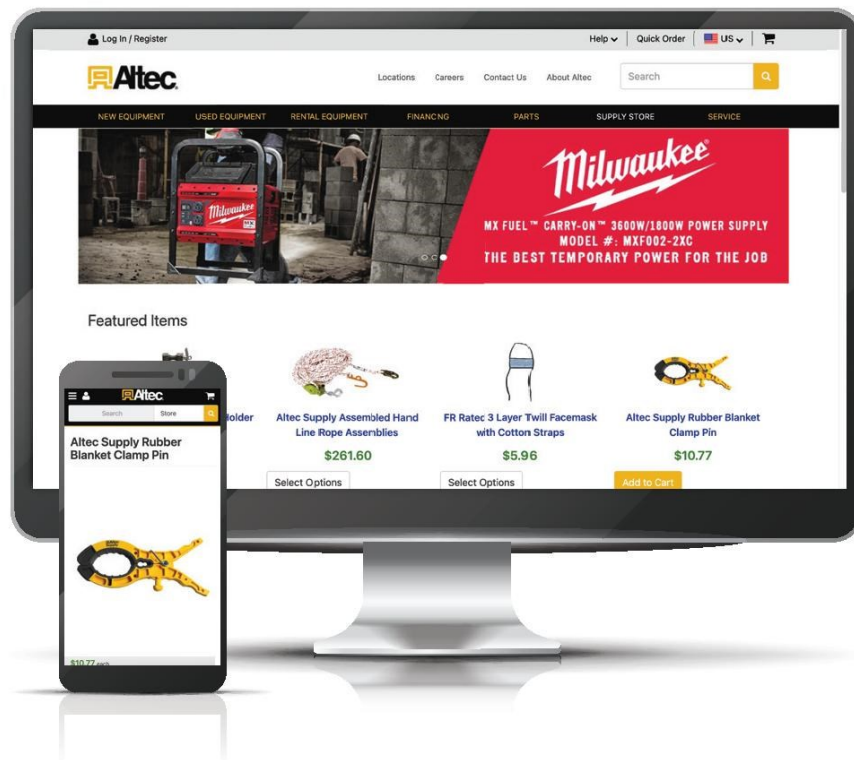

**Cost:** **Member: \$450 / Non-Member: \$550**

**CVSE Manual:** Student to use their shop's hard copy or purchase a hard copy as per link: <http://www.vsis.ca/>

**Students are required to bring a hard copy version of the manual to the course.**

**FOR SERVICE, PARTS & SUPPLIES NEEDS, CALL:**

## CAFS TRAINING

Stu Imre, CAFS Instructor

**Put CAFS's wealth of knowledge and industry trainers to work for you!**

**Our instructors are top-quality and have many years experience in their related fields of training.**

### Facility Operators Certificate

This 1 day, 8-hour course prepares Designated/Preventative Maintenance Program Inspection Facility owner (s)/operator (s) for the Facility Operator's Course examination.

The Facility Operator Course training course educates the course participant of the program objectives, authorized inspector obligations, and a clear recognition of operator responsibilities and liabilities.

The Facility Operator Course provides a consistent platform of instruction to ensure business operations are complying with all applicable regulations, legislation, program requirements, and standards.

#### **2025 DATES TO BE ANNOUNCED**

**Cost:**      **Member: \$220 Member**      /      **Non-Member: \$275**

**Required Materials:**

Students are required to bring a 2016 Vehicle Inspection Manual (hard copy) or Vehicle Safety & Inspection Standards online and computer or tablet is recommended

### Commercial Vehicle Cargo Securement

This 1/2-day (4 hour) program is designed for Fleet and Safety Managers, as well as all commercial vehicle operators, as per the new *Load Securement Standard* under schedule 10 of the National Safety Code. This course will equip managers and operators with the necessary skills to secure loads according to current regulatory requirements and industry "best practices".

ALL cargo being transported on the highway system must remain on or within the transporting vehicle under all conditions which could reasonably be expected to occur in normal driving, and when a driver is responding to emergency situations, short of a crash.

Drivers: Know how to properly secure the load.

Managers: Know that your fleet is in compliance and drivers & equipment are legal

Note: New North American Load Securement Standards in effect January 1, 2005.

**In-House training** delivered based on typical configurations and load dynamics specific to your business.

### Commercial Vehicle Wheel Service

This "Certificate Course" is designed for mechanics apprentices and tire people who are responsible for removing and installing wheels, and also for drivers to help them on their pre-trip inspection.

This comprehensive 3-hour training program teaches service personnel the risks of improper installation, how to spot defective components, how to properly prepare wheels for installation, correct tightening procedures and how to comply with recommended procedures for torque checks and preventative maintenance.

**In-House training.**
